

ONCE UPON A TIME... THE ISÈRE

Annual membership form 2020

IMAGINE ISÈRE

A NEW ISÈRE FOR 2024

And what if the Isère reemerged from the depths of the Ocean...?

An ambitious project is planned for 2024: the construction of a large sailboat – the only one of its kind in the world. In recreating the frigate's original functions, the ship will not be a mere replica but also focused towards the future...

AN AMBASSADOR SHIP FOR UNIVERSAL EXCELLENCE

A mark of authentic values and excellence, craftsmanship brings together passionate men and women across various professions, which are sometimes overlooked. Sadly, some industries are struggling to find a second wind and risk disappearing altogether...

Our expertise is a precious legacy that must be promoted and perpetuated. Just like the eponymous frigate, the Isère will be positioned as an ambassador ship for universal excellence by welcoming on board the best businesses, artisans and artists in the world. Each will benefit from a unique space in which to share their passion and showcase their creations in abroad.

A UNIQUE SHIP IN THE WORLD

This construction will make an impression and remain etched in people's minds. Its modern and original design will give it a unique aura and distinguish it from other great ships. Anxious to build a responsible future, the Isère will combine an ecological construction method with a propulsion system that respects the environment.

A SHIP THAT CREATES EXPERIENCES

The Isère will put on a show during its stopovers in ports all over the world. Themed voyages, exhibitions, Gala dinners, conferences... By connecting people, the Isère will be enriched by its encounters with different cultures and will offer its passengers an unforgettable journey...

DIVE INTO AN EXTRAORDINARY ADVENTURE !

“

If you want to build a ship, don't gather your men and women around you to give them orders, explain every detail and tell them where to find everything. If you want to build a ship, make your men and women long for the sea.

”

Antoine de Saint-Exupéry

FUNDRAISING

AN INTERNATIONAL FUNDING CAMPAIGN

While building a new Isère is an ambitious undertaking, the message and the values it aims to promote are more ambitious still. In today's society, which seems to be dominated by the quest for profit and individualism, this initiative is like a breath of fresh air, a brand new approach that aims to rekindle the notions of brotherhood and goodwill on our planet.

It is not widely known: Bartholdi's work was in fact created without the help of any government, but through the financial contribution of thousands of French and American citizens. As was the case for Bartholdi's work in the 19th century, the Isère revival is not a private initiative, but a collective and international one.

A UNIVERSAL SYMBOL

The purpose of this Association is to create, facilitate, promote and sponsor a wide range of cultural, economic, innovative and collaborative projects related to the promotion of universal excellence. These projects aim to strengthen and encourage relations and cooperation between countries through its project for the rebirth of Isère.
